

A multidimensional course for health care providers about the experience of mental illness

NAMI Provider is a staff development program for health care professionals who work directly with people experiencing mental illness. NAMI Provider introduces mental health professionals to the unique perspectives of people with mental health conditions and their families. You'll develop enhanced empathy for their daily challenges and recognize the importance of including them in all aspects of the treatment process. Leaders for both the program and the seminar must have successfully completed the teacher training for the full program (1.5 days). This is a training of teachers, who

NAMI Provider full program: 5 sessions, 2.5 hours/session

Schedule options:

- One session per week for five weeks
- One session per day for five days
- Five sessions in two days (two or three per day)

NAMI Provider Seminar

The four-hour NAMI Provider seminar is an overview of the topics covered in the full program and is presented by a team of three leaders, one from each category of lived experience.

What People are Saying

“When I went through the course, I kept thinking ‘what a wonderful learning experience that all our [hospital] staff need to have.’ We have worked hard over the years to create a more humanistic and compassionate culture. This program will definitely help us in that direction.” -Participant

Come for the training; stay for the conference!

In addition to the Provider Training, participants will discover resources in law enforcement, judicial, provider agencies and other social supports all focused on reducing the impact on hospital emergency departments.
